

# Magic Bra® Collection Swim

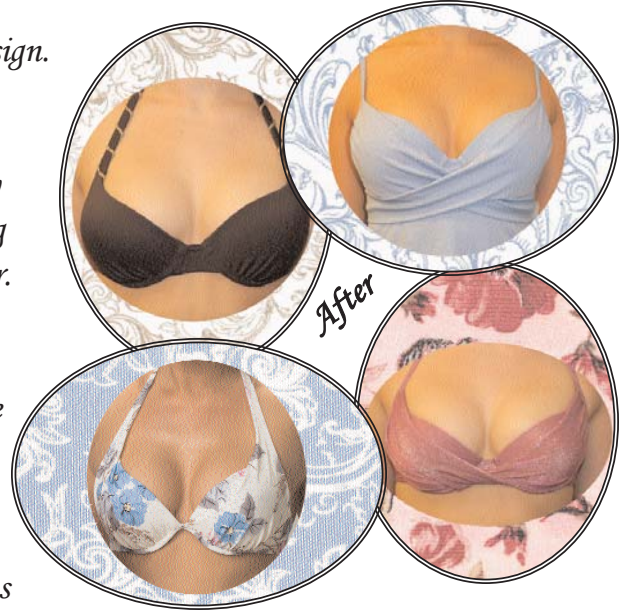

Magic Bra® Collection Swim has been designed to make its customer feel special. With advanced technologies in bust sculpting shapes, our collection has something special for all body types and tastes. Our collection's effort is to highlight the function throughout design.

Adorable prints and precious printed linings will make everyone feel special. First, it captures your attention esthetically just by hanging on the hangers waiting to be tried on. A hang tag makes the customer curious about what the collection has to offer. Once they try it on, they are hooked.

The collection consists of several different cup styles that make our bra a "smart bra". Depending on what the customer is looking for, we have developed the cup:

The **Dream** cup is everyone's dream come true. This incredible cup adds one size and creates center front push. Our **Wish** cup has a built in padded uplift with an additional removable gel pad for extra lift. The **Desire** cup creates center front push and cleavage. Desire is our sexy cup with WOW factor.

The **Prism** cup is the ultimate enhancement cup. This powerful pad is a real blockbuster that adds two sizes while still looking natural.

Another highlight of our collection is three different types of pants that have been purposely placed throughout the line.

**Hip Hugger** - low rise pant with still kept rear coverage.

**Mid-Cut pant** is about fuller side coverage keeping sleek look.

**High Waist Pant with light front control** offers flattering lines that enhance our great fit without appearing too heavy. Great for customers looking for slender support and hold.

Magic Bra 07 Collection Swim is about perfect curves, sexy looks, precious prints, smooth lines, sculpting bodies and creating magic with sophisticated looks.

Is it Real  
or is it Magic Bra®
